SRAE PERFORMANCE MEASURES

THREE CATEGORIES OF SRAE PERFORMANCE MEASURES

1. Structure, cost, and support for program implementation
2. Attendance, reach, and dosage
3. Participant characteristics, program experiences, and perceptions of program effects

LEVELS OF SRAE PERFORMANCE MEASURES DATA

KEY DEFINITIONS

- **Grant recipients** receive SRAE funding directly from FYSB
- **Providers** implement SRAE programming directly to youth
 - Some providers are SRAE grant recipients
 - Others are subrecipients that receive funding from an SRAE grant recipient
- **Program models** consist of the core curriculum plus other lessons or activities integrated to meet SRAE objectives
- **Cohorts** are groups of youth jointly receiving a defined SRAE program
 - A cohort could consist of an individual, if programming is delivered one-on-one

MEASURES OF ATTENDANCE, REACH & DOSAGE

- Number of youth who attended at least one program session during the reporting period: overall, by grade grouping, and by implementation setting
- Number of parents/guardians and other adults who attended at least one program session
- Whether more than 50% of youth were in specified, highly vulnerable populations
- Number of youth completing at least 75% of intended program hours
- Number of program hours delivered for each cohort

**PROGRAM
MODEL**

INFORMATION ON PARTICIPANT SURVEY ADMINISTRATION

Measures reported for entry survey and separately for exit survey:

**PROGRAM
MODEL**

- Number of surveys administered
